Climate is not a problem for these homes, as they are built with very highly energy-efficient wall structures.

Off-site construction yields high-quality products and this sort of fabrication is eco-friendly by using resources wisely, and efficiently and it recycles many resources and materials.

## Green peace

Our homes are built to be much more resistant to natural disasters and fluctuations in climate, they are spacious, personalized to the buyer, and can be constructed in a significantly shorter timeframe than traditionally constructed homes.

**"Move in to your new lifestyle, with our comfort living, with unique design, high efficiency, and high quality, Aster Domo"**

No matter what 'home' means to you, Aster is the place we call home. It's the place where we eat, the place we spend time with friends and family, where we meditate, and the future that many people dream of.

If you ever imagined sleeping in the mountains or the lakeside in an open space but protected from the weather. Aster gives you the original idea of wooden panels on the walls, ceiling, and floor, giving the possibility of living in a healthier way.
