the future of living

Freestanding concept

Aster Domo is built with the freestanding concept and does not cause damage to the environment where it is built. It is 100% eco-bio green, with certified materials, and also with the KfW40 energy coefficient.

Aster Domo 1 Bedroom

The 62.7 m² is our regular home design, as it is very comfortable with 1 large living room with a kitchen, a hall a large bedroom, and a large bathroom.

Brutto space 62.7 m²

Brutto space 674.9 ft²

Assemble in 3 hours

A house made with energy-efficient technology, and biomaterials, it is made from one unit, two cubes, and can be assembled only in three hours.

Volumetric Solution

This type of construction is going to deliver you a project on budget, as scheduled, and in less time than the other construction types.

It is fully customizable as you prefer. From layouts to materials, each module can be designed to work for you. Add the bonus to all of this it takes only 90 days from order time to your job site and only 3 hours to assemble.

Improve the **quality of living** with Aster Domo

Our goal is to make change happen for a livable and sustainable world of the future. Living communities that are healthy lifestyles and resilient infrastructure that benefits all people.

From small to large projects our goal is to improve the quality of living by creating well-designed spaces that create a connection and interaction with nature and humans.

In the Future of Living, we build instantly volumetric solutions all around the world

Climate is not a problem for these homes, as they are built with very highly energy-efficient wall structures.

Off-site construction yields high-quality products and this sort of fabrication is eco-friendly by using resources wisely, and efficiently and it recycles many resources and materials.

Green peace

Our homes are built to be much more resistant to natural disasters and fluctuations in climate, they are spacious, personalized to the buyer, and can be constructed in a significantly shorter timeframe than traditionally constructed homes.

"Move in to your new lifestyle, with our comfort living, with unique design, high efficiency, and high quality, Aster Domo"

We have merged technology and mobility to make it possible to create sustainable communities of the future with off-site construction (modular, pre-fab, panelized), worldwide in any location.

We have created these future homes that can be adaptable nearly anywhere in the world, they are more environmentally friendly, as well as tougher to mother nature's vengeance.

We live modular

Whether you prefer a bold rich look or a vibrant bright area,
we have a palette to suit any style.

If you want more surface and function for a home office or maximize the space for a studio, the interior has an adaptable, open floor plan

All the furniture is made by our own brand-named Stella Furniture. There are millwork couches, sitting areas, and everything you need to experience the luxury of limitless options and live your life.

“Our open floor plan allows furniture configuration to meet your needs”

With this furniture, design capabilities are infinite, and for those wanting to customize, the only limitation is one level of imagination and budget.

“Whether you prefer a bold rich look or a vibrant bright area, we have a palette to suit any style”

No matter what 'home' means to you, Aster is the place we call home. It's the place where we eat, the place we spend time with friends and family, where we meditate, and the future that many people dream of.

If you ever imagined sleeping in the mountains or the lakeside in an open space but protected from the weather, Aster gives you the original idea of wooden panels on the walls, ceiling, and floor, giving the possibility of living in a healthier way.

Discovery

Aster is the future and the starting place of love, hope and dreams.

dream

Living in communities is healthy
lifestyles and peace of mind.

Our goal is to improve the quality of living by creating
well-designed spaces that create a connection and
interaction with nature and humans.
